

# DECISION SCIENCES AUTHOR INDEX

Volumes 1-10 (1970-1979)

The Author Index presents an alphabetic listing of all authors contributing articles in Volumes 1-10 of *Decision Sciences*. If an author (group of authors) has contributed more than one article, his (their) articles appear in chronological order. Otherwise, every entry is in alphabetical order by author(s); that is, Smith and Apple comes before Smith and Jones. The second (as well as third and fourth) authors are listed separately in their proper sequence, but complete reference information is found only under the first author.
